Marilyn Brickles, Clerk Treasurer

The Corporation of Wollaston Township

Health & Safety Policy

The Corporation of Wollaston Township is committed to ensuring the safety and protecting the health of its employees and will take every reasonable precaution to fulfil this commitment.

The Reeve and Members of Council will provide leadership and support for the Health and Safety Program. We believe that an effective Health & Safety Program is important not only to keep our employees safe and healthy and to meet legislative requirements but also to reduce the costs associated with accidental injuries and property damage. To this end, we are committed to supporting the program and providing the necessary resources to ensure its continued effectiveness.

All Supervisory Staff are responsible for ensuring that employees are given the necessary instruction, information and supervision to enable them to perform their work safely and in compliance with the Occupational Health and Safety Act, the building and fire codes, and other applicable legislation.

All Management Staff must be aware of their duty to take every precaution reasonable in the circumstances for the protection of the Township of Wollaston workers, including those who perform work for the Township under contract.

Workers play a major role in the Health and Safety program by their participation on Joint Health & Safety Committees, reporting hazards, and the use of proper safety equipment when required.

Township of Wollaston employees at every level are expected to work in compliance with accepted trade safety standards, Township safety rules and the Occupational Health & Safety Act and its regulations. Failure to do so will result in appropriate disciplinary action.

We believe that regardless of the type of job or service being performed, the health and safety of the worker must always be the primary consideration.

“If you compromise on safety, you compromise on life”

Reeve
